quick start guide

INTRODUCTION

Congratulations! You are a proud owner of a Miuchiz™ Digital Character! Please read this brief manual in order to have fun with your Miuchiz from Day 1!

TAKING CARE OF YOUR CHARACTER

Your goal is to keep your Miuchiz Happy, Fed, and Having Fun: the more Unhappy, Hungry, or Bored they are, the less they do. There will be things they can't do when they're Hungry, but they CAN do when they're happy, and vice versa. Take care of your Miuchiz and your Miuchiz will be a lot of fun…neglect your Miuchiz, and they may take off, and you'll have to reset and lose all of the items you've worked so hard to gain (including your CREDITZ!). How to tell how your Miuchiz is doing? Click on the MENU button on the unit and keep reading…

HAPPY, HUNGRY OR BORED?

HAPPY

If you're Happy and you know it…wait, you DON'T know it, do you? Well, you DO if your Happy Meter is filled. If your character isn't Happy they can't play Games. If you want to get Happier, make sure they try on items, change their appearance, or go shopping. Unless they're Hungry, that is…

HUNGRY

Is your stomach rumbling or did a truck just drive by? Oh, wait…we're not near a street. That's not good. You need something to eat! If your character is Hungry, they can't go shopping for items or look around for other Miuchiz via IR. Go buy food and feed your character!

FUN

Watching paint dry sound fun? You're Bored and need something to do! Go and play a game on your home game system or buy a really cool item and play with it to get your motor running.

You won't be able to do all of the things your character should do unless you connect your handheld to **www.miuchiz.com** to download the latest version of the software (you can tell by looking at your Creditz screen).
